

IPS/HT/G HARDENED BRONZE BUSHING

SEE OTHER PDF FOR SIZING

All bushings made in the USA and laser engraved for easy identification and reorder. Custom laser engraving for your part numbers also available.

IPS/HT/G work well with any form of lubricant but for best performance we recommend a solid synthetic grease like PPE's OLD BULL® brand of synthetics found at www.ppe.com.

Because of their **HEAT TREATED SHELL** and **HARDENED BRONZE CORE** along with their full bearing wiper design and performance oil grooves we know you'll be pleased with the performance and value of Ipsco's IPS/HT/G mold bushing.

Hardened Bronze Core	Perimeter Lube Groove w/connector	Double 8 Performance Oil Grooves
Precision Ground O.D.	48/52 R/C SHELL	Full Bearing Wiper Design

ABOUT

HIGH PRODUCTION NO HASSLES

Tired of bushings going **SOFT, LIMB, OUT OF ROUND AND SHORT LIVED?** No, we said bushings. If your tired of spending money on bushings every time your mold comes in for service. Then we've got something you should try!

Heat-treated shell and hardened full bearing bronze core this bushing is designed for a long trouble free life. Sit back and relax let us take the hassle out of your molding operation. Built to **INDUSTRY STANDARDS** so there's no rework.

The common law of business balance prohibits paying a little and getting a lot... it can't be done. If you deal with the lowest bidder, it's well to add something for the risk you run. And if you do that, you will have enough to pay for something better.

STOP SPENDING GOOD MONEY ON BAD BUSHINGS.
